#### HOW TO USE

#### RESTRAINTS

DO NOT apply by fogging or misting equipment. For surface treatment only. DO NOT use FENDONA 15 SC $^{\circ}$  to control fleas on animals.

AREAS	PEST	RATE	HOW TO APPLY
Domestic,	German cockroach	Initial treatment or	For crawling insects, apply as a coarse low pressure
industrial	Australian cockroach	control and	spray to areas where pests frequent.
and public	American cockroach	heavy infestations:	For flying insects, apply as a surface treatment using a
health	Smoky brown	40 mL in 1 L water	fine spray to wet the surface.
situations.	cockroach		Apply 5L of diluted spraymix/100m <sup>2</sup> up to but not
	Oriental cockroach	Maintenance treatment	exceeding the point of run-off.
	Fleas	or	For cockroach control, where the use of a spray is not
	Flies	short term control or	suitable, a registered cockroach gel product such as
	Silverfish	light infestations:	GOLIATH <sup>®</sup> Gel or AMDRO <sup>®</sup> Gel may be applied as per
	Spiders	20 mL in 1 L water	the registered label.
			For spider control, the treated webs should be left in
			place for at least 72 hours to increase efficacy, then
			removed for monitoring or any re-infestation.
			Add a non-ionic surfactant at the registered label rates
			to improve spreading on hard to wet surfaces.
	Ants	Initial treatment or	Follow the directions for use as per cockroach
		extended control or	treatment (above).
		heavy infestations:	
		65 mL in 1 L water	
		Maintenance treatment	
		or short term control or	
		light infestations:	
		35 mL in 1 L water	

# NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

#### **GENERAL INSTRUCTIONS**

FENDONA<sup>®</sup> 15 SC Insecticide controls insects by contact action and ingestion. When applied as a surface spray, the product offers long residual activity. FENDONA<sup>®</sup> 15 SC is of relatively low toxicity to humans and other animals and is suitable for use in domestic and public areas.

FENDONA<sup>®</sup> 15 SC Insecticide can be applied with a knapsack sprayer or other conventional spray equipment used to control public health pests. To obtain best results, all surfaces should be treated, especially cracks, crevices and infested areas. A higher volume of water may be required on very absorbent surfaces. Apply to the point of run-off only. Shake or invert the container before opening. Fill the spray tank with half the volume of required water. Carefully measure the required amount of FENDONA<sup>®</sup> 15 SC Insecticide in a graduated cylinder and add to the spray tank. Top up the remainder of the water and agitate thoroughly. Do NOT store diluted insecticide. Prepare a fresh suspension as necessary. Clean sprayer out thoroughly after use.

#### **RESISTANCE WARNING**

#### GROUP 3A INSECTICIDE

For insecticide resistance management FENDONA® 15 SC Insecticide is a Group 3A insecticide. Some naturally occurring insect biotypes resistant to FENDONA® 15 SC Insecticide and other Group 3A insecticides may exist through normal genetic variability in any insect population. The resistant individuals may eventually dominant the insect population if FENDONA® 15 SC Insecticide or other Group 3A insecticides are used repeatedly. The effectiveness of FENDONA® 15 SC Insecticide on resistant individuals can be significantly reduced. Since occurrence of resistant individuals is difficult to detect prior to use, BASF Australia Ltd accepts no liability for any losses which may result from the failure of FENDONA® 15 SC Insecticide to control resistant insects. FENDONA® 15 SC Insecticide may be subject to specific resistance management strategies. For further information, contact your local supplier or BASF Australia Ltd representative.

#### PRECAUTIONS

Avoid contact with food, food utensils, or places where food is prepared or stored.

Before use – Cover or remove bird cages or fish tanks during spraying. Remove or cover all exposed foodstuffs, cover all dishes and utensils and places where food is prepared or stored.

After use – thoroughly ventilate treated area. Clean up thoroughly before processing / serving resumes.

#### **RE-ENTRY PERIOD**

DO NOT enter treated areas until spray has dried.

#### PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

Dangerous to fish. Do NOT contaminate ponds, waterways or drains with product or used container.

#### STORAGE AND DISPOSAL

#### KEEP OUT OF REACH OF CHILDREN.

Store in the closed, original container in a cool, well-ventilated area. Do not store for prolonged periods in direct sunlight. Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on-site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush, or puncture and bury empty containers in a local authority landfill. If no landfill is available, bury the containers below 500 mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.

#### SAFETY DIRECTIONS

Harmful if swallowed. May irritate the eyes and skin. Facial skin contact may cause temporary facial numbness. Avoid contact with eyes and skin. Avoid inhaling spray mist. When preparing spray, wear cotton overalls buttoned to the neck and wrist and a washable hat and elbow-length PVC gloves. Wash hands after use. After each day's use, wash gloves and contaminated clothing.

#### FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre. Telephone 13 11 26 Australia-wide.

#### MATERIAL SAFETY DATA SHEET

Additional information is listed in the Material Safety Data Sheet.

#### CONDITIONS OF SALE

All conditions and warranties rights and remedies implied by law or arising in contract or tort whether due to the negligence of BASF Australia Ltd or otherwise are hereby expressly excluded so far as the same may legally be done provided however that any rights of the Buyer pursuant to non- excludable conditions or warranties of the Trade Practices Act 1974 or any relevant legislation of any State are expressly preserved but the liability of BASF Australia Ltd or any intermediate Seller pursuant thereto shall be limited if so permitted by the said legislation to the replacement of the goods sold or the supply of equivalent goods and all liability for indirect or consequential loss or damage of whatsoever nature is expressly excluded.
